**Subject:** Microsoft Settlement

To Whom it May Concern,

I am currently employed as a Systems Administrator. I have been working with computer systems for almost fifteen years. I would like to comment on the proposed settlement

The proposed settlement would have almost no effect upon the business practices of Microsoft. If adopted in its current form then the result will be negligible change in Microsoft's behavior, and yet another protracted court case in the not too distant future.

Any effective settlement must concentrate on opening up the markets that Microsoft has effectively closed by its use of proprietary interfaces, file formats and protocols.

I hereby respectfully submit these comments for your consideration.
